

UST/USTM

Traditional Style. Bullard Tough.

Bullard UST/USTM Series fire helmets are engineered Bullard Tough for extreme conditions. You'll find the classic, traditional style you desire in the affordable, easy-to-maintain design of the Bullard UST/USTM Series.

Tough and Durable

The outer shell of the UST/USTM is made of Thermoglas® and is resistant to chemical attack and is stable at extreme temperatures. In addition, the dual-purpose CFC-free urethane foam of the impact liner provides superior impact and penetration protection, as well as heat insulation. This stable, high-heat foam is coupled with a thermoplastic inner shell for durable protection.

Custom Comfort

All Bullard fire helmets are equipped with the U-Fit System, offering 36 custom comfort settings. By engineering our helmets to include 36 points of adjustment, you can adjust the ride and balance of your helmet. It's like having a custom-fitted helmet, designed just for you.

Molded Inner Liner Impact Cap System

UST/USTM helmets include a molded inner liner impact cap system that provides superior durability, resistance to heat, and thermal rise protection. It also keeps the helmet shell secure and stable, and the molded goggle grommets allow for greater goggle comfort, support, and performance.

Premium Quality

The intricately carved brass eagle or Canadian maple leaf proudly adorns the front of Bullard UST/USTM helmets. The quality, durability, and pride of these brilliant leather front holders are a statement of patriotism in the fire service. Bullard leather front holders are capable of accommodating most every leather front on the market today. The brass eagle comes in both 5-inch and 6-inch sizes.

NFPA Approved

The UST/USTM fire helmet meet and exceed the NFPA 1971, *Standard on Protective Ensemble for Structural Fire Fighting and Proximity Firefighting*, Pertaining to Structural Fire Helmets.

Online Leather Front Ordering

Personalized leather front ordering has never been easier! Design your own leather front, right now online at www.BuildYourBullard.com.

ReTrak Integrated Visor

The ReTrak Helmet Series offers emergency responders a fire helmet with an integrated visor that easily accommodates eyewear and features a simple one-handed operation.

Integrated Helmet Lighting Available

The UST/USTM fire helmet is available with Bullard TrakLite® helmet lighting. Featuring multiple forward-facing, long lasting, bright LED lights, TrakLite is integrated into the helmet design for excellent weight balance and illumination.

1 Tough Thermoglas® outer shell

Available in either a high-gloss or a matte finish. Pigmented resin color throughout the shell minimizes visibility of chipping and cracking.

2 M-PACT Plus Molded Inner Liner System

Protects head against heat rise and provides an extra layer of protection against falling objects.

3 Carved brass eagle/maple leather front holder

Intricately-designed brass eagle or maple leaf front holder accommodates any leather front.

4 Custom leather front (sold separately)

Personalize your helmet with custom leather front; many options available.

5 4" optically correct faceshield

Optically correct faceshield eliminates distortion and reduces eye stress and fatigue.

6 Nomex® ear cover

Nomex is a heat and flame resistant fabric made by DuPont.

7 Chinstrap with postman's slide

Easy to adjust and secure

UST/USTM Fire Helmet

Technical Specifications

Dimensions: 15 5/8" L x 12 1/4" W x 7" H
 Outer Shell Material: Fiberglass
 Inner shell material: Non-CFC Urethane foam
 Suspension: 6-point nylon crown strap with crown pad
 Warranty: Date of Manufacture; five (5) years on shell, 10 years on non-electronic components

Optional Accessories

- 1A ReTrak Integrated Helmet Visor
- 2A TrakLite Integrated Helmet Lighting
- R325 6" faceshield • Red-orange reflective striping
- R721YLW yellow Nomex ear/neck protector

8 Sure-Lock® ratchet headband with comfort brow pad

(Leather brow pad optional)

Sure-Lock is the top performing ratchet headband, made exclusively by Bullard. Comfort brow pad is removable and washable or replaceable.

9 Leather ratchet cover (not shown)

Durable and comfortable leather ratchet cover is replaceable in case of damage.

10 Scotchlite® reflective striping

The highest quality reflective material available; retains reflectivity to 500° F (260° C). No burning, cracking or peeling.

11 Brass D-Ring

Large, durable D-ring allows you to hang your helmet on virtually any size hook.

12 Crown straps with crown pad

Comfortable 6-point suspension system with soft crown pad that provides an extra level of comfort while wearing the helmet.

13 Three position ratchet height adjuster

The height adjuster is the base of our 36-point comfort system. Adjust to ride high, low, or somewhere in the middle for a custom fit.

2A TrakLite® Integrated Lighting (not shown)

Available with Bullard TrakLite helmet lighting. Featuring multiple forward-facing, long lasting, bright LED lights, rear buddy indicator light, long battery life (uses four AAA batteries) and easy on/off operation.

1A ReTrak Integrated Visor (not shown)

Available with Bullard ReTrak Integrated Visor, featuring a simple one-handed operation in a design that accommodates eyewear.
